

An Open Letter to the Students of Newcastle University

By now you will have discovered that your time at University provides an amazing array of opportunities...

As a group of Christian Lecturers and Researchers, we encourage you to take up the opportunity to investigate for yourselves the claims of the Christian Faith – you may have no better opportunity than the one you have while at University to take a look for yourself. Resist the option to leave University with great knowledge and lifelong friends but no closer to knowing the reason for your existence.

We have each examined the life and claims of Jesus Christ and have become convinced that he is who he says he is, and that he has enormous significance for our lives.

To start your own investigation:

- speak with one of us in person,
- get in touch with Newcastle University Christian Union (<http://www.uncu.org.uk>),
- go to a local church, or contact the Chaplaincy (<http://www.ncl.ac.uk/chaplaincy>)

Supported by Newcastle University CU and Agape (agapenortheast@agape.org.uk).

Signed:

Dr Louise Allan
Institute for Ageing and Health

Prof Mark Birch-Machin
Institute of Cellular Medicine

Mr Roger Bird
School of Civil Engineering and Geosciences

Prof Tim Cawston
Faculty of Medical Sciences

Prof Bill Clegg
School of Chemistry and Honorary Chaplain

Prof Heather Cordell
Institute of Human Genetics

Mr Rob Davidson
School of Mechanical & Systems Engineering and Honorary Chaplain

Dr Cath Drummond
Northern Institute for Cancer Research

Dr Paul Ezhilchelvan
School of Computing Science

Dr David Golding CBE
School of Marine Science & Technology and Honorary Chaplain

Prof Tim Goodship
Institute of Human Genetics

Dr Ian Hardcastle
Northern Institute for Cancer Research

Mr David Harte
Newcastle Law School

Dr Mark Jackson
School of Historical Studies

Dr Victor Khomenko
School of Computing Science

Dr Matt King
School of Civil Engineering and Geosciences

Prof Ivan Lewis
School of Mechanical & Systems Engineering (retired)

Dr Nick Megoran
School of Geography, Politics and Sociology

Dr Andrew Pike
School of Chemistry

Dr Carole Proctor
Institute for Ageing and Health

Dr John Sayer
Institute of Human Genetics

Prof Robin Seymour
School of Dental Sciences

Prof Rob Taylor
Institute for Ageing and Health
